SUMMARY

A motivated and detail-oriented Engineering Computer Science student with a strong foundation in programming, algorithms, and problem-solving. Skilled in Python, Java, C++ with hands-on experience in developing web applications, data analysis. Proficient in collaborating within teams to design and implement innovative solutions. Eager to apply academic knowledge and practical experience to contribute to impactful projects and grow within a professional environment.

TECHNICAL SKILLS

- **Programming Languages:** Advanced in C, C++ and Python, Beginner in Java, HTML, CSS
- **Database:** MySQL, MongoDB
- **Operation systems:** Linux, Windows, macOS
- **Tools:** Git, Microsoft Office Suite (Excel, Word, PowerPoint)
- **Areas of Interest:** Data structures and Algorithms, Operating systems, Objected Oriented Programming, DBMS

EXPERIENCE

District 126 – Toastmasters International-Part-time

June 2024 – Present

Vice President Education Associate

Hyderabad, Telangana

- **Collaboration and Executive Committee:** Worked with the ExCom team to design initiatives that promote personal and professional growth. Supported event planning, including contests and workshops, to enhance member leaning experience.
- **Meeting Management:** Contributed to the smooth execution of meetings by ensuring role readiness and timing. Helped create an engaging and structured learning environment during meetings.
- **Education Planning:** Collaborated with Vice President Education to schedule speeches and projects. Maintained a record of members milestones and achievements for tracking purposes.
- **Member Progress Tracking:** Monitored members progress in the Toastmasters Pathways program. Provided guidance and support to help members achieve their educational goals.

EDUCATION

Bachelor of Technology – Computer Science Engineering

Anurag Group of Institutions – Hyderabad

Aug 2023 - Present

CGPA:9.82/10

AWARDS

Best Speaker, Anurag Toastmasters

February 2025

Best Table Topics Speaker, Raipur Toastmasters

March 2025

PROJECTS

AI Video Transcription Tool

2024

Developed a tool to **automatically transcribe spoken content** in videos into accurate text using **advanced speech-to-text algorithms**, with **support for multiple languages** using **YouTube Transcript API** and **Speech Recognition** for speech-to-text conversion, **Google Translator and Deep Translator** for translation, **Flask** for managing **video processing and transcript generation**, and **HTML & CSS** to build an **intuitive user interface** for uploading videos.

Quiz Application

2024

Developed a **quiz application using Python** featuring **four domains**, allowing users to **choose their preferred category** and answer multiple-choice questions. Implemented a **score tracking system** to display results at the end of the quiz and integrated **randomized question selection** to enhance user engagement. The application was built using **Python**, using fundamental programming concepts such as **lists, dictionaries, and conditional statements** to manage questions and answers efficiently.

E-Commerce Website

2025

Designed and developed a responsive e-commerce website using **HTML, CSS, and JavaScript**, focusing on an intuitive and visually appealing user interface. Implemented product listings and an **add-to-cart** functionality to enhance user experience. Ensured cross-device compatibility and smooth navigation to provide a seamless shopping experience.
